## Report from the Chairman

It is my privilege to present the third annual publication of the *Alberta Equalized Assessment Overview*.

The Assessment Equalization Board maintains an extensive municipal property assessment and equalized assessment data base and wishes to assemble this information in a way that is useful and interesting to you. Your suggestions to improve the contents of this report are invited.

Sixty-five percent of "fair actual value," a combination of depreciated building cost and land market value, has been the standard assessment level prescribed for the municipalities in the past. Today, many municipalities feel that, except in remote or depressed areas, full value assessments correlate to market value quite well and are more understandable to the general public. Attesting to this, eighty-five municipalities have exercised the option to adopt full value assessments since 1991.

In 1992 the Assessment Equalization Board announced an intent to change to the assessment equalization level from sixty-five percent to one hundred percent of fair actual value to correspond with this current assessment philosophy and practice.

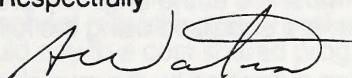

Processing equalized assessments at full value would:

- reinstate the equalized assessment level to the same level as actual assessment and thus provide a means to monitor equity from year to year using comparable components of the live and equalized assessments,
- simplify the equalization calculation,
- provide all municipalities a perception of what their actual assessment might look like if a general assessment was done at full value.

With this in mind, the Assessment Equalization Board would like to change the equalized assessment level to one hundred percent of fair actual value (full value) effective for tax year 1994.

Your comments with respect to this proposal would be appreciated.

Respectfully

Adrian A. Waters, A.M.A.A. Acting Chairman  
Alberta Assessment Equalization Board

## **Introduction to the Assessment Equalization Board**

The Alberta Assessment Equalization Board is made up of a chairman, vice-chairman, and three part time members appointed by Order in Council. They are assisted by the Secretary of the Board and two administrative personnel.

The Vice-chairman, who is also the Director of Administration, is presently filling the vacant position as Chairman. Currently the Board members are:

- Anita Ratchinsky, Mayor, City of St. Albert; representing the Alberta Urban Municipalities Association.
- Jean DeChamplain, Councilor, M.D. of Westlock; representing the Alberta Association of Municipal Districts and Counties.
- Steve Bemount; representing Alberta Education.

Board members are recommended for appointment by their respective organizations.

The Alberta Assessment Equalization Board was originally established in 1920 to annually determine equalized values of properties taxed by the province. Equalization responsibilities were assigned to various Department of Municipal Affairs administrative units until 1957 when equalized assessment use expanded to become the basis for sharing costs of common programs among municipalities. The Board's structure and powers were then re-defined.

The Board's mandate is to annually determine equalized assessments throughout the Province in accordance with the Municipalities Assessment and Equalization Act, Chapter M-32 of the Statutes of Alberta (R.S.A., 1980) and Alberta Regulation 56/86.

## **Equalized Assessment in Alberta**

It is not yet feasible to assess all properties in Alberta in the same year. Complete reassessments within each municipality are currently prepared every eight or nine years. These "general assessments" are maintained during the assessment cycle at the original base year level.

Assessment equalization provides a means of comparing wealth among areas of the province that cost share and is based on the municipality's live (actual) assessment, no matter how outdated. The Assessment Equalization Board updates each municipality's assessment to a common current year while recognizing current assessment legislation and practices. Although many municipalities are now assessing properties at 100% of value, most are at the originally prescribed 65% value level which, in general terms, are equalized using the following formula.

Using information submitted by the municipality each year, the equalized assessment is calculated by:

- (a) adjusting the values of comparable components for cost increases or decreases from the base year used for the current live assessment;
- (b) totaling the adjusted component values;
- (c) dividing the total by the current live assessment level (most municipalities have used 65%) to obtain 100% of value;
- (d) then multiplying the result by 65% to adjust to the prescribed equalization level.

Equalized assessment is calculated to represent a total assessment in the municipality as if a general assessment had been completed in the year prior to the equalization year. It will, therefore, change each year in order to recognize market conditions, building material and labour costs, and assessment policies that were not there when the live assessment was originally completed for the municipality.

The value of improvements (buildings) is updated using cost indices prepared in conjunction with the Alberta Assessment Manual.

Farm land value is likewise updated however indices relate to economic value of land used for purely agricultural purposes.

Residential, commercial and industrial land values are updated using assessment to market value ratios that are determined annually by each municipality's assessor. Results of the assessment to market value ratio analysis program are monitored by the Assessment Inspection Services Branch of Alberta Municipal Affairs.

### **Equalized Assessment Use**

A basic level of education is provided through the Provincial School Foundation Program administered by Alberta Education. Although the major portion of education funding is borne by the province, each municipality contributes a share which is determined by applying an annually established provincial mill rate to the municipal equalized assessment. The amount requisitioned is collected by the municipality through a tax on non-residential properties, non-family corporate farm lands and certain vacant residential properties. Provincial School Foundation program funds are then distributed to local school authorities on the basis of the number of students educated in the jurisdiction.

Equalized assessments are also used to allocate any requisitions required over and above the grants received through the School Foundation Program. The supplementary school requisition likely makes up the largest contribution a municipality would pay to a cost shared program.

Similarly, hospital costs are covered by the province under Alberta Hospital Plan, however, hospital boards are permitted to requisition municipalities directly for certain capital expenditures that are financed through property taxation at the municipal level. Equalized assessment is also incorporated into formulas used to apportion provincial grants; for example, the Municipal Assistance Grant, Transportation Grant and grants for Senior Citizens Foundations.

Other applications of equalized assessment include apportionment of financing for planning areas, fire protection areas, ambulance service and recreational areas.

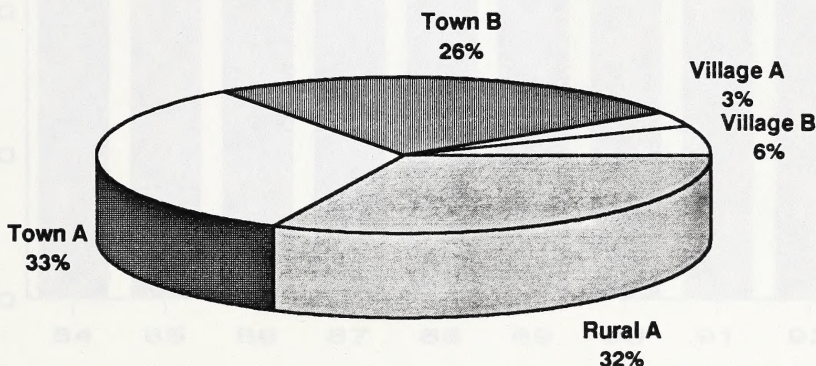

It is also used as a measure of a municipality's capacity to service debt when borrowing.

A simple explanation of how a requisition is allocated using equalized assessment figures can be shown as follows:

### Total S.F.P. Equalized Assessments

<u>Municipalities Contributing</u>	<u>Equalized Assessment</u>	<u>Percent of Total Equalized Assessment</u>	<u>Requisition</u>	<u>Share of Requisition</u>
Rural A	\$ 21,288,900	32%	X Total Requisition	\$ 160,000
Town A	22,190,600	33%	X Total Requisition	165,000
Town B	17,280,150	26%	X Total Requisition	130,000
Village A	2,180,660	3%	X Total Requisition	15,000
Village B	4,270,130	6%	X Total Requisition	30,000
	<b>\$ 67,210,440</b>	<b>100%</b>		<b>\$ 500,000</b>

### Properties Included

Section 1 subsection (j) of the Municipalities Assessment and Equalization Act (R.S.A., 1980, CM-32) sets out the following properties to be included in equalized assessments:

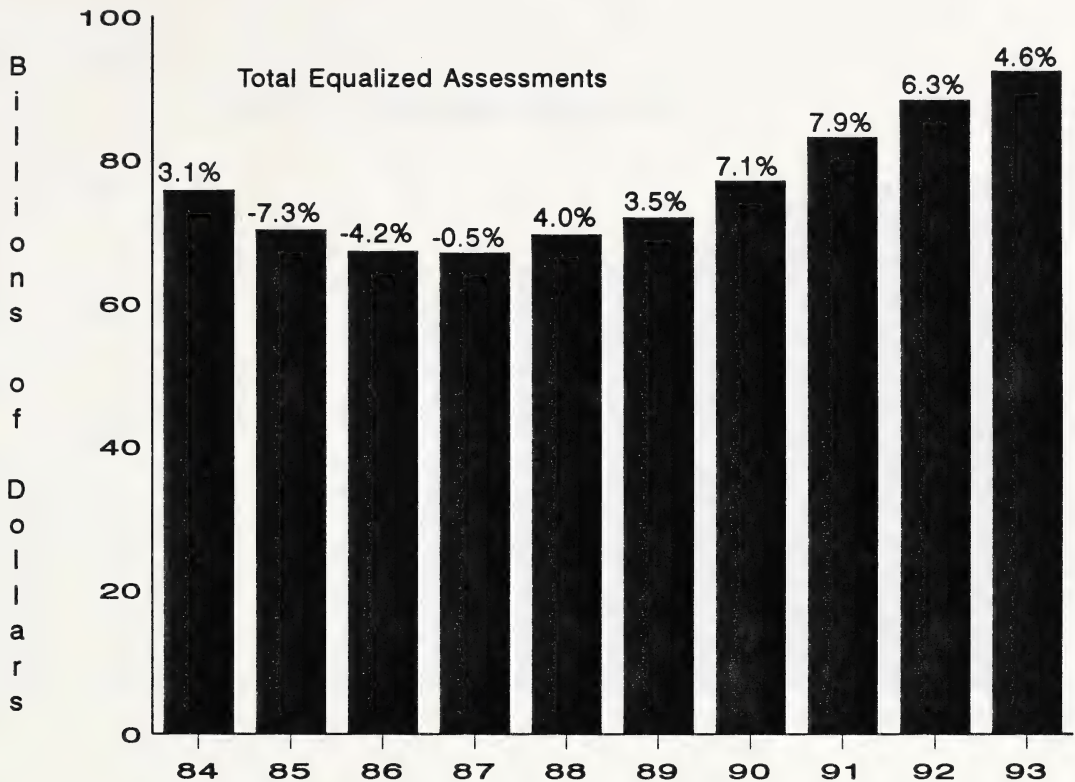

- all taxable land and improvements;
- all grant properties - both federal and provincial;
- municipally owned property that produces revenue;
- property assessed under the Electric Power and Pipeline Assessment Act (power lines, pipelines, and cable television lines);
- licensed mobile units;
- and buildings and improvements assessed under authority of a supplementary assessment bylaw passed pursuant to Section 8(1) of the Municipal Taxation Act (R.S.A., 1980, CM-31).

# Yearly Provincial Totals of Equalized Assessments
